PROFESSIONAL SUMMARY

Reliable, adaptable and detail-oriented professional with experience in administration, customer service, process support, records management, and data capturing. Currently completing an IT Technical Support Level 4 qualification, building practical skills in troubleshooting, digital tools, and problem-solving. Comfortable learning new systems, managing information accurately, and supporting people and processes effectively. Brings a strong work ethic, a willingness to learn, and the ability to adapt quickly to new environments, with a goal of contributing organisational, administrative, customer-focused, and digital skills to a professional team while continuing to grow.

CORE SKILLS

IT Support • Computer & Networking • Cybersecurity • Administration • Customer Service • Data Management • Microsoft Office • Web Development • Problem Solving • Communication • Teamwork • Time Management • Attention to Detail • Adaptability • Design Thinking

WORK EXPERIENCE

IT / Robotics Intern | Penreach Jul 2026

- Guided learners through robot maze-navigation challenges and explained algorithms and path-planning concepts.
- Demonstrated robotics and coding solutions, troubleshooting problems in real time.
- Supervised learner groups during practical activities in a hands-on Makerspace environment.
- Communicated technical concepts in a clear and patient way to a non-technical audience.

Process Controller | Vericon 2020 – 2021

- Monitored operational processes to maintain quality and consistency.
- Conducted quality inspections and recorded production information.
- Identified and reported process deviations.
- Assisted with stock monitoring and safety procedures.

Jump Start Retail Store Associate Programme | MRP Foundation 2019

- Completed a 6-day experiential training programme covering stock room and stock floor operations.
- Trained on receiving and transfer of stock, stock administration, and handling stock queries.
- Built understanding of product knowledge and merchandising standards on the shop floor.
- Gained exposure to price board management and general retail store operations.

EDUCATION

IT Technical Support Level 4 | I.N.T Skills Training 2025 – In Progress
